

CS152
Computer Architecture and Engineering
Discussion #5

February 10, 1995
Nikunj C. Oza

Items of Business

- Datapath Questions? There were none!
- Tips for group projects:
 - Meet frequently
 - » Everyone needs to commit to doing something for the next meeting. Everyone will feel obligated to complete that task.
 - » We are essentially requiring weekly meeting in discussion sections, but...
 - » Meet more frequently early on because it's hard to get started.

More Group Project Tips

- Have a clear project plan
 - How you will divide the work amongst yourselves.
 - Clear specification of the interfaces between the parts specified above: makes it easy to put everything together.
 - Intermediate milestones. The CS152 staff is providing many of these. Feel free to add more.
